- Clean energy and low emissions development strategies
- Energy access
- Market analysis
- Transaction support
- Utility management and performance improvement
- Facility Services

### ENVIRONMENT AND NATURAL RESOURCES

- Climate change and adaptation services
- Biodiversity conservation and management
- Water resources and watershed management
- Forestry
- Carbon markets and management
- Coastal zone management and fisheries

**FEATURED INTERNATIONAL PROJECTS WORLDWIDE:** Tetra Tech's multidisciplinary staff works with clients to plan, implement, and manage short- and long-term projects, providing practical solutions that ensure sustained development.

**ALTERNATIVE LIVELIHOOD DEVELOPMENT, COLOMBIA**

Encouraging people in economically and politically unstable districts to shift from illicit crop production to alternative livelihood activities while strengthening local governments' ability to respond to their constituents' needs.

**COASTAL RESOURCES MANAGEMENT, THE PHILIPPINES**

Developing ecosystem based approach to fisheries management, driven by sound science and informed stakeholders. Established 70 new marine sanctuaries, ramped up enforcement and outreach, and recommended new monitoring efforts.

**SUSTAINABLE WATER AND SANITATION, AFRICA**

Improving and expanding the delivery of water and sanitation services in poor, urban settings across Africa. Building partnerships with utilities, local governments, donors, and businesses to promote water service reform and governance.

**IMPROVED RULE OF LAW PROGRAM, JORDAN**

Providing direct technical assistance and training to design and implement institutional changes in the Jordanian judiciary and Ministry of Justice. Training professional staff, developing effective technical units, and building consensus among key stakeholders and the general public on the need for an independent, empowered, and accountable judiciary.

**SOUTH ASIA REGIONAL ENERGY PROGRAM**

Building partnerships throughout the region by creating clean energy centers of excellence in India, Nepal and Sri Lanka and training nearly 1,000 South Asian energy professionals on energy analysis, training, e-solutions, and community liaison issues. Established the South Asian Women in Energy.

325,000

Jobs created as a result of projects in Colombia

50%

Increase in the number of female future judges through recruitments and scholarships under Rule of Law – Future Judges Program in Jordan

88%

Increase in collections as a result of Georgia Energy Security Initiative project

**LAND TENURE AND PROPERTY RIGHTS**

- Land use planning
- Land policy, legislation, and administration
- Customary tenure systems
- Resource access and use rights
- Property rights
- Indigenous and vulnerable groups

**WATER AND SANITATION**

- Water supply and distribution systems
- Sanitation management
- Public health assessment
- Total water management planning
- Wastewater collection, treatment, and reuse
- Water utility services and management

**ARCHITECTURAL / ENGINEERING SERVICES AND INFRASTRUCTURE**

- Green infrastructure development
- LEED design and architectural services
- Port/harbor design
- Land development
- Facility design, renovation and construction
- Roads

**CROSS-CUTTING SERVICES**

- Gender equality
- Public information and awareness
- Monitoring and evaluation
- Capacity building
- Grants systems management
- Disaster preparedness and management
- Public-private partnerships
- Regulatory reform

**Tetra Tech** provides scientific and industry-leading solutions to tackle the world's most complex challenges. Our service areas include agriculture and economic growth, democracy and governance, energy, environment and natural resources, land tenure and property rights, water supply and sanitation, architectural/engineering services, and infrastructure. For federal agencies, governments, multilateral banks and multinational corporations, Tetra Tech creates practical, environmentally responsible solutions that ensure sustainable development.
