

One Acquisition Solution for Integrated Services (OASIS)

Tetra Tech capabilities under the OASIS scope

Tetra Tech is a leading provider of consulting and engineering services worldwide. We are *Leading with Science®* to provide sustainable and resilient solutions that span the project life cycle. With 450 offices around the world, our strength is in collectively providing integrated services—delivering the best solutions to meet our clients’ needs.

Program Management Services

Tetra Tech’s program and project management services are structured with a single purpose in mind: maintain satisfied clients. We provide a complete assortment of services and expertise, resulting in the safe, compliant, cost-effective and efficient execution of projects of any size. Tetra Tech’s proven systems, processes, and tools provide real time information from project inception through closeout.

Management Consulting Services

Tetra Tech’s management approach is based on stakeholder engagement, capacity building, innovative technologies, and best practices—including knowledge management, strategic planning, and training.

International Development Services

Tetra Tech’s international experts bring an integrated approach that is focused on building the capacity of communities and individuals to create strong, healthy, and resilient societies.

Engineering Services

Tetra Tech provides engineering and architecture design services, including green design and sustainability services for projects related to water infrastructure, transportation, buildings and facilities, and aviation systems engineering.

Scientific Services

Tetra Tech applies comprehensive scientific knowledge in planning, conducting, evaluating, and managing applied research, knowledge enhancement, and technology development and innovation.

Logistics Services

Tetra Tech manages the flow of resources and goods between the point of origin and the point of destination to meet the requirements of organizations and projects.

Financial Management Services

Tetra Tech brings prominent experts in financial management and economic analyses for clean and regional energy market development, risk analysis, transactional support, and more.

Tetra Tech holds Pool 1, Pool 3, and Pool 4 unrestricted contracts.
